

Sustainability at Porsche

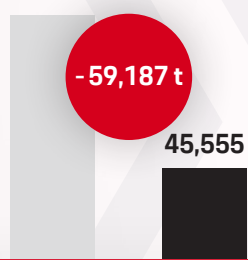

Porsche reduced factory CO₂ emissions by 75% between 2014 and 2018

75%

> Porsche locations in Stuttgart & Leipzig

CO₂ emissions in tonnes

104,742

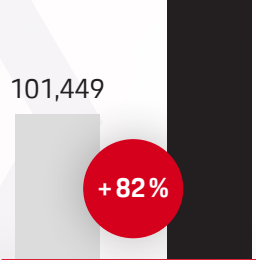

2014

2018

Number of vehicles produced

184,791

2014

2018

Porsche is pursuing the vision of the "Zero Impact Factory"

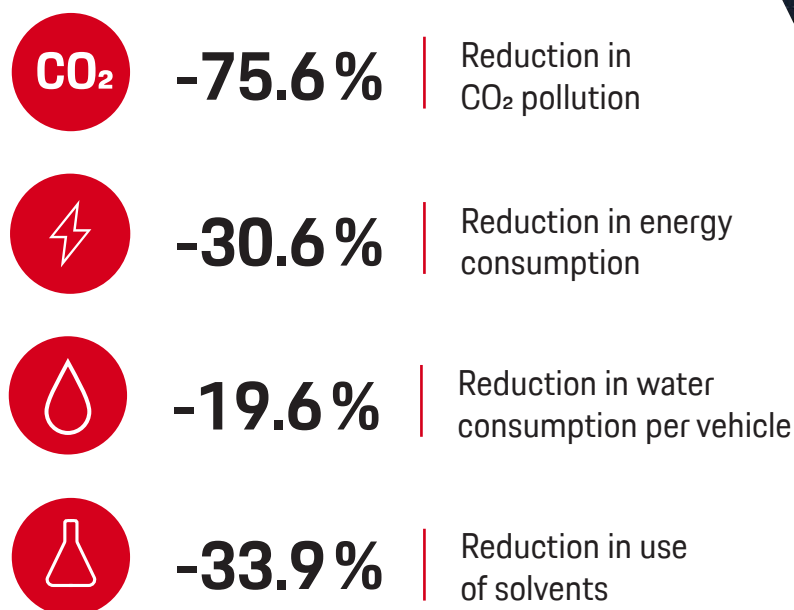

» "Sustainability is the sum of many individual elements. Our objective is not only to achieve CO₂-neutral production of the fully electric Taycan but also, looking to the future, to avoid any ecological footprint."

Albrecht Reimold,
Member of the Executive Board
for Production and Logistics

> Reduction in environmental impact since 2014

(per produced vehicle)

CO₂-neutral production of the

Taycan

> Company mobility management

Job Ticket

Ticket for public transport subsidised by Porsche.

Porsche ride-sharing app

TwoGo

encourages carpooling.

Fine Dust Ticket

Enables all employees at the locations in the Stuttgart area to use public transport free of charge in the event of a fine dust alert.

Parking space management

avoids unnecessary traffic looking for parking spaces.
