Porsche Motorsport Weekly Event Notes: Monday, October 28, 2019

This Week.

- Two-Time. De Angelis First to Win Both North American Porsche Cup Challenges in Same Year.
- Super Deal. Porsche Extends Supercup Partnership with Formula 1®.
- Marque Champions. Porsche Earns SRO GT4 America SprintX Manufacturer Title.

Porsche Profile.

Event Story Lines.

Two-Time. De Angelis First to Win Both North American Porsche Cup Challenges in Same Year.

In 2019, Roman De Angelis recorded an impressive 22 victories in a possible 28 races between the two premier Porsche one-make race series in North America. In the process, the 18-year-old Canadian became the first driver in history to win the Platinum class championships of both the IMSA-sanctioned Porsche GT3 Cup Challenge USA by Yokohama and Porsche GT3 Cup Challenge Canada by Yokohama in the same

PORSCHE

season. The resident of Belle River, Ontario now holds three Porsche GT3 Cup Challenge championships dating back to his first, the 2017 GT3 Cup Challenge Canada Gold Class title.

Splitting driving duties between Porsche 911 GT3 Cup race cars prepared by Kelly-Moss Road & Race in the USA Championship and Mark Motors in Canada, the 2018 Porsche Young Driver Academy graduate put on a driving clinic in the pair of Porsche 911 GT3 Cup race cars. Having shown impressive potential in 2017 at the age of 16, De Angelis became the youngest driver to ever win a Porsche GT3 Cup Challenge Canada race in the Gold class. The tall redhead took on the challenge of the top Platinum class in 2018. He barely missed a beat from his rookie season chasing eventual 2018 Canadian Champion Zacharie Robichon and USA-titlist Trenton Estep last year.

Few records now exist on either side of the US-Canadian border that do not carry the name: Roman De Angelis. In the 16 race, eight-event weekend, season that made up the Platinum class in the Porsche GT3 Cup Challenge USA, De Angelis piloted the No. 79 Kelly-Moss Racing for Children's Porsche 911 GT3 Cup car under the checkered flag first 11 times. He stood on the class podium 15 times. In his native Canada, the prodigy campaigned the No. 79 Mark Motors Racing Porsche 911 GT3 Cup race car to an even more impressive record of 11 wins in 12 races. Two event weekends were shared by the two championships: the Circuit Gilles Villeneuve in Montreal and Road America in Elkhart Lake, Wisconsin. De Angelis won all four races at both tracks.

Among the accolades and awards presented to the champion of each series is the lease of a Porsche 911 road car. For his Canadian title, De Angelis was gifted a silver

PORSCHE

Porsche 911 Carrera 2S while in the United States he was presented a white Porsche 911 Carrera 4S. De Angelis will take delivery of the iconic sports car awarded for his title in Canada. Meanwhile, as an example of his generosity and kind nature, the teenager has donated the car awarded by Porsche Cars North America (PCNA) for the USA championship to longtime Kelly-Moss charity partner the Racing For Children's organization. It will be used to conduct "hot laps" for patients at Barber Motorsport Park near the Children's of Alabama hospital in Birmingham.

As a result of this selfless gesture, PCNA and Porsche Motorsport North America (PMNA) presented De Angelis a "Key to Flacht". This exclusive experience will give him a behind the scenes look into Porsche A.G and its Motorsport department in Germany. He will receive this when his titles are celebrated at the annual Porsche Night of Champions, December 7 in Stuttgart.

Marque Champions. Porsche Earns GT4 America SprintX Manufacturer Title.

The close of the SRO GT4 America season at Las Vegas added another trophy to Porsche's already impressive 2019 display shelf. The German sports car maker took top honors for Manufacturers in the SRO GT4 America SprintX Championship with its customer-entered Porsche 718 Cayman GT4 Clubsport. The award celebrated success in the 16-round championship that pits road-based GT race cars against one-another in a 60-minute, two-driver format. One of the most successful teams was Park Place Motorsports which earned the Team Championship in the SprintX East series.

The international GT4 classification of race cars is one of the largest and most competitive sports car series in the world. All entered by customer programs with Pro-

Am and Am classes, seven different manufacturer's cars were represented throughout the season which opened at the Circuit of the Americas (COTA) in Austin, Texas on March 1 – 3 and closed at Las Vegas Motor Speedway (LVMS) in Nevada, October 7 – 10.

In other SprintX categories, Jason Hart and Matt Travis earned second-place in the Pro-Am Drivers Championship with the No. 47 Nolasport Porsche 718 Cayman GT4 Clubsport. That gave the Louisiana-based program a second-place result in the Team Championship. In the SprintX East Championship, Park Place Motorsports drivers Alan Brynjolfsson and Trent Hindman brought home a third-place season finish in the Pro-Am class championship with the neon yellow Porsche and the SprintX East Team Championship. Meanwhile, Thomas Collingwood and John Tecce, driving the No. 69 BGB Motorsports 718 Cayman GT4 Clubsport, were awarded third-place in the Amateur (Am) category for SprintX.

Three additional strong season-long performances came out of the TRG stable with Sean Gibbons who finished as runner-up in the SprintX East Am Drivers' chase. In the SprintX West standings for Amateur drivers, Kevin Woods and Chris Bellomo finished in second-place with TRG team car James Rappaport and Derek Deboer in third-place.

In the shorter 50-minute, single driver format of the SRO GT4 America Sprint Championship, Porsche customers wrapped the year with a quartet of third-place championship finishes for the mid-engine Porsche. Veteran Spencer Pumpelly teamed with TRG to take the No. 66 machine to a third-place championship result in the Pro category giving the California-based operation a third-place in the Team Championship as well. Similarly, Brynjolfsson drove the No. 7 Park Place Porsche 718 Cayman GT4

PORSCHE

Clubsport solo to third-place in the Am class of the Sprint Championship. All combined, Porsche added a third-place Sprint trophy to its SprintX Manufacturer's title.

Dr. Daniel Armbruster, President and CEO, Porsche Motorsport North America.

“The SRO GT4 America series gives our customers a wide variety of classes to compete in. Therefore, it is a perfect fit for our Porsche Motorsport Pyramid. We see throughout the variety of classes available, the Porsche 718 Cayman GT4 Clubsport is a platform capable of providing championship potential from the relative novice in racing all the way to the highest caliber of driver. Our customer teams and drivers made the most of the car in GT4 this season and we wish to congratulate and thank them for being a part of the Porsche family and adding to the long history of success of Porsche in motorsports.”

Super Deal. Porsche Extends Supercup Partnership with Formula 1®.

Porsche will continue to run as a support series to Formula 1 for the foreseeable future. The German sports car manufacturer has extended its contract with the pinnacle of formula car motorsport for another three years. As a result, the Porsche Mobil 1 Supercup and Porsche's national one-make cup series will run as part of the FIA Formula One World Championship™ up to and including the 2022 race season.

The Porsche Mobil 1 Supercup has been part of the Formula 1 support program since its debut season in 1993. Famous race circuits such as the Belgian Circuit de Spa-Francorchamps, the Autodromo Nazionale Monza in Italy and Monaco's street circuit in Monte Carlo are regular fixtures on the racing calendar of the international one-make cup. All drivers compete in 485 hp Porsche 911 GT3 Cup race cars. All racing vehicles

PORSCHE

are technically identical, as are the tires and fuel – guaranteeing equal opportunity for all drivers.

The Supercup represents the pinnacle of Porsche's one-make cups and offers an ideal training platform for talented racing drivers. Earl Bamber (New Zealand), Jörg Bergmeister (Germany), Timo Bernhard (Germany), Michael Christensen (Denmark), Kévin Estre (France), Richard Lietz (Austria), Sven Müller (Germany), Nick Tandy (Great Britain) and Dirk Werner (Germany) made an impression in the international one-make cup series and now belong to the factory driver lineup at Porsche. The Porsche Young Professionals Matt Campbell (Australia), Matteo Cairoli (Italy), Mathieu Jaminet (France), Dennis Olsen (Norway) and Thomas Preining (Austria) also showcased their talent in the Supercup. Today's DTM professionals Philipp Eng (Austria) and René Rast (German) used the series as a springboard into professional motor racing.

The renewal of the contract means that the Porsche Mobil 1 Supercup will celebrate its 30th anniversary with Formula 1 in the year 2022. The first round of the one-make cup was contested at the 1993 Grand Prix of San Marino in Imola. In 1950, Formula 1® racing began and is now the world's most prestigious open wheel motor racing competition, as well as the world's most popular annual sporting series. The 2019 FIA Formula One World Championship™ runs from March to December and spans 21 races in 21 countries across five continents.

The debut of the new Porsche 911 GT3 Cup race car in 2021 marks a new milestone in the history of Porsche Motorsport. The latest generation Cup vehicle will be unveiled next year and fielded in the Porsche Mobil 1 Supercup and selected Carrera Cups in

PORSCHE

2021. The world's most widely produced GT racer is run in all of Porsche's one-make cup series around the globe including the IMSA Porsche GT3 Cup Challenge USA and Canada, both series' are backed by Yokohama. From 1990 up to and including 2019, Porsche produced 4,251 units of the Porsche 911 GT3 Cup at the main factory in Stuttgart and subsequently prepared the vehicles to be ready to race before shipping to customers worldwide.

Fritz Enzinger, Vice President Porsche Motorsport.

"We're proud to forge ahead with the close and long-established partnership. Formula 1 offers an exclusive setting with a unique flair. This fascination and high media importance represent an ideal overall package for our racing series."

Michael Dreiser, Director Porsche Motorsport Sales.

"In the future, the Porsche Mobil 1 Supercup will focus on eight European rounds of the FIA Formula One World Championship. Porsche's national one-make cup series will enhance the Formula 1 support program at many other events around the world, which showcases Porsche in an attractive environment."

Ross Brawn, Managing Director, Motorsport at Formula 1.

"We are pleased to have extended our long-standing partnership with Porsche for a further three years. This one-make series provides some of the most spectacular racing of any series and contributes significantly to the show that's on offer over a Grand Prix weekend. Furthermore, in the thirty years during which it has run alongside Formula 1, the Porsche Supercup has provided an excellent launch pad for many drivers who have also made their mark in international races at all levels."

About Porsche Cars North America, Inc.

One Porsche Drive, Atlanta, GA 30354 USA

Established in 1984, Porsche Cars North America, Inc. (PCNA) is the exclusive U.S. importer of the Porsche 911, 718 Boxster and 718 Cayman; Macan and Cayenne; Panamera; and Taycan. Headquartered in Atlanta, Georgia, since 1998, PCNA is also home to the first Porsche Experience Center in North America featuring a module-based 1.6 mile driver development track, business center, and fine dining restaurant, 356. The company operates a second Porsche Experience Center near Los Angeles. That 53-acre complex features a driver development track with eight educational modules totaling 4.1 miles, a business center, and Restaurant 917. PCNA supports 191 independently owned and operated Porsche dealerships in the U.S., including supplying parts, service, marketing, and training. They, in turn, work to provide Porsche customers with a best-in-class experience that is in keeping with the Porsche brand's 70-year history of leadership in the advancement of vehicle performance, safety, and efficiency. PCNA is an indirect wholly-owned subsidiary of Porsche AG, which is headquartered in Stuttgart, Germany.
