Exclusive sports car special edition with expanded equipment

New special edition in elegant black: Porsche Cayman Black Edition

Stuttgart. Porsche is now also offering the Cayman as a Black Edition. The all-in-black special series previously comprised the Boxster and the 911 Carrera with rear-wheel and all-wheel drive as both a coupé and a cabriolet, distinguished by their expanded standard equipment. The combination of black paintwork and a black partial leather interior emphasises the timeless and sporty elegance of the sports cars. The standard equipment of the Black Edition models includes Porsche Communication Management (PCM) with navigation module, automatic anti-dazzle mirrors, rain sensor, cruise control, parking assistant at the front and rear and the Sport Design steering wheel.

The Cayman Black Edition is based on the mid-engine coupé with a 2.7 litre flat engine and 275 hp (202 kW). The 20-inch Carrera Classic wheels, bi-xenon headlights with PDLS (Porsche Dynamic Light System) and optional side window trims in aluminium are eye-catching highlights. For enhanced personal comfort, the driver and passenger can avail of two-zone climate control and heated seats. The Cayman Black Edition comes with the high-quality audio system Sound Package Plus.

In Germany, sales of the Cayman Black Edition will start on 2 October. The price including VAT and country-specific equipment is €59,596.
