

The new Taycan and Cayenne Black Edition models

10/07/2025 Porsche is offering a special series of 'Black Edition' Taycan and Cayenne models enhanced with black accents. In addition to their special exterior and interior appearances, these special-edition models feature many high-quality equipment details. The Taycan also offers the added advantage of a longer range thanks to a larger battery.

The Taycan Black Edition is available as a sports sedan. The Cayenne Black Edition is available in classic SUV form or as an elegant SUV coupé. There are also several drive options to choose from. The special-edition models will make their debut at Goodwood Festival of Speed in the UK (10 to 13 July 2025). Deliveries will start in the second half of the year.

Black accents in the exterior and interior emphasise the sporty, elegant look of the Black Edition models. On the Taycan, the Sport Design package, the side window trims and the model designation at the rear are finished in high-gloss black. High-gloss black exterior mirrors in combination with other exterior paint finishes are available exclusively on the Black Edition. The rear light strip with illuminated black Porsche logo also comes as standard. The black interior accent package, the storage package and

the black-brushed illuminated aluminium door sill guards are also included.

The larger Performance Battery Plus, which is otherwise available as an option for the Taycan and Taycan 4, is also standard on the Taycan Black Edition models. The greater gross energy capacity of 105 kWh benefits both the driving performance and the WLTP range. In the base Black Edition sports sedan, for example, which produces up to 435 PS[1], the range is increased to up to 668 kilometres – 76 km, or 12 per cent, greater than that of the standard model.[2]

The Cayenne models feature the Sport Design package, the exterior package, the exterior mirrors and the Porsche logo, as well as the model designation at the rear, all finished in high-gloss black. The interior is enhanced by an interior package in brushed-black aluminium.

Porsche has also added the following to the list of standard equipment for both model series: Lane Change Assist, Surround View including Active Parking Assist[3], 21-inch wheels with centre caps featuring the full-colour Porsche crest, HD Matrix LED headlights (which are tinted on the Cayenne Black Edition), LED door projectors that show the Porsche logo, Comfort Seats in the front (with 14-way electric adjustment and memory function) with the Porsche crest on the headrests, a BOSE® Surround Sound System including Dolby Digital (with Electric Sport Sound in the Taycan), the Storage package, and black smooth leather trim[4]. The Taycan also features an exclusive badge in the centre console bearing the 'Black Edition' designation.

The Black Edition models are not only available in black

While it may be the Black Edition, black isn't compulsory as the base colour: when configuring the edition models, other exterior paint finishes can also be selected. For the Taycan, all colors in the Contrasts and Shades category are available at no extra charge, including colours such as Jet Black Metallic, Volcano Grey Metallic, Dolomite Silver Metallic and Ice Grey Metallic. For the Cayenne customers can choose at no extra charge from the Contrasts category: White or Chromite Black Metallic.

For an additional charge customers can also optionally choose a colour from the Legends, Dreams and Shades (Cayenne) categories or take advantage of the extensive customisation options offered by the Paint to Sample programmes. There are also options for the interior, including leather in Slate Grey or a two-tone design.

Special Black Edition package on request and further personalisation

The extended Black Edition package exclusively includes 'Black Edition' lettering on the front doors, as well as illuminated door sill guards and a vehicle key set with case also featuring matching lettering.

The cars can be made truly unique with the help of the Sonderwunsch programme. Numerous interior components can be personalised, including the vehicle keys and case, the reversible luggage compartment mat, the floor mats, the vehicle documentation folder, the lid of the storage compartment in the centre console, and the door sill guards.

The corresponding options for the Taycan and Cayenne are marked with the personalisation symbol in the Porsche Car Configurator and can be visualised there in real time. Porsche Exclusive Manufaktur realises these equipment details with great attention to detail and outstanding craftsmanship.

[1]Overboost power when using Launch Control, details of the measurement method at www.porsche.com/gtr21 [2]Specifications for German-market versions [3]Availability depends on the market [4]The following elements are upholstered in black smooth leather: front and rear seat centre panels; front and rear seat bolsters; front and rear headrests; upper, forward and lower sections of the dashboard; lid of the storage compartment and side trim of the centre console; steering wheel rim and airbag module; armrests on the front and rear doors; door sills at the front and rear; door panels in the front and rear; decorative surfaces in the front and rear doors (not available in conjunction with interior packages).
