

Precision meets Performance: Porsche Centre Dubai unveils 911 GT3 RS in Dubai

11/08/2025 Fitted with race-proven components from Manthey-Racing, the Porsche 911 GT3 RS unveiled at Porsche Centre Dubai combines advanced aerodynamics, precision suspension, and motorsport-grade braking to deliver top-of-the-line performance and exclusivity.

Dubai |Porsche Centre Dubai turned its showroom into a haven for motorsport enthusiasts, as customers were invited to witness something truly special: the unveiling of the first Porsche 911 GT3 RS in Dubai fitted with the coveted Manthey Kit.

The event wasn't just centred on viewing the car, but learning about its extraordinary level of engineering. Guests were welcomed with refreshments, engaging product training and the chance to get up close to a machine that represents the pinnacle of Porsche road and track engineering.

A kit for the few, built for the ultimate

The Manthey Kit is not an off-the-shelf option. It's the result of Porsche's motorsport expertise meeting Manthey-Racing's Nürburgring-honed precision.

From the semi active coilover kit that delivers razor-sharp handling, to the high performance brake pads and braided brake lines that offer precise pedal feel, every component is designed to elevate the 911 GT3 RS's already breathtaking capability.

The aerodynamics get a major boost too, with front splitters, carbon fibre DRS blades, rear diffusers, aero discs, and roof fins all working together to squeeze every ounce of performance out of the chassis while maintaining aerodynamic efficiency. Even the smallest details carry intent, from illuminated carbon fibre door sills to bespoke Manthey decals.

Built to be driven ... and admired

Customers at the event took their time exploring every detail, from the carbon fibre end plates to the precision-crafted tow lugs in striking colours. For many, it was a rare opportunity to see how Porsche's race bred technology translates into a road going car.

By the end of the evening, one thing was clear: the Manthey Kit doesn't just make the 911 GT3 RS faster. It sharpens every sense - yours and the car's. It's a statement for drivers who refuse to compromise when it comes to performance and exclusivity.

The Manthey Kit for the Porsche 911 GT3 RS is available now at Porsche Centre Dubai.
