

A masterpiece of personalisation: the all-electric Macan, a canvas for individual expression

04/12/2025 In an era of rapid technological advancement and mass production, the true essence of luxury is found in the art of the bespoke. Porsche Centre Jordan proudly presents a testament to this philosophy: a highly-individualised Macan, meticulously crafted through the Porsche Exclusive Manufaktur. This all-electric SUV is not merely a vehicle; it is a collaborative masterpiece, where performance engineering converges with the enduring power of personal expression.

Jordan | It's a vehicle that doesn't just transport but connects, offering an electric range of up to 624 km that promises journeys as vast as your imagination. The heart of this machine is its 100 kWh gross battery, a wellspring of silent power. When unleashed, it delivers an overboost of up to 408 PS , propelling you from a standstill to 100 km/h in a breath-taking 5.2 seconds , with a top speed that reaches 220 km/h. The experience is not just about speed; it's a symphony of acceleration. And for those moments when time is of the essence, the Macan 4 accepts a maximum DC charging power of 270 kW , allowing it to replenish from 10% to 80% in a mere 21 minutes, a testament to its seamless

integration into a modern, dynamic lifestyle.

The vehicle's bold presence begins with its exterior, finished in a rare Oak Green Metallic Neo paintwork that exudes a quiet sophistication. The design is sharpened by a series of precise, handcrafted details. The model designation on the sideblades is rendered in Neodyme, a hue that is both modern and distinct. The Macan is further enhanced with an Offroad Design package painted in the exterior colour and side blades finished in the same hue, creating a seamless and purposeful aesthetic.

Exterior mirrors painted in high-gloss Black provide a striking contrast, while 22-inch RS Spyder Design Wheels painted in Neodyme ground the vehicle's dynamic stance. As a final, subtle flourish, 'PORSCHE' logo LED door courtesy lights announce its exclusive nature.

The cabin of the Macan is a testament to the convergence of passion and craftsmanship. A Leather Package in Black/Night Green provides a rich and unique foundation for the interior, with Air vents painted in Oak Green Metallic Neo tying the exterior and interior palettes together. The tactile experience is elevated with a Heated Multifunction GT Sports Steering Wheel in Race-Tex and a Roof lining in Race-Tex, materials chosen for both their feel and their motorsport heritage. Personal touches abound, from the Porsche Crest embossed on the front headrests to the Bespoke seat badge, illuminated, each detail underscoring a commitment to unparalleled artistry.

Beyond aesthetics, the Macan delivers a performance experience tailored for the senses. It is equipped with the Porsche Electric Sport Sound, a feature that provides a unique and emotional acoustic experience to match the instant, exhilarating thrust of the electric motors. The Sport Chrono Package with Porsche Design Subsecond Clock not only enhances driving dynamics but also serves as a constant reminder of the car's precision.

Through Porsche Exclusive Manufaktur, the Macan transcends the bounds of a production vehicle. It is a one-of-a-kind creation, born from a dream and brought to life through meticulous attention to detail. It is a vehicle that doesn't just perform, it reflects the very essence of its owner, a powerful statement in a world of uniformity.
