Sim racing works driver Joshua Rogers moves up to second place

04/11/2023 With ninth place in the final of the seventh of the ESL R1 autumn series' eight rounds, Porsche works driver Joshua Rogers has advanced from third to second place in the drivers’ standings. His Australian compatriot Dayne Warren also improved by one position in the championship, putting him in sixth. Porsche Coanda Esports Racing consolidated its second position in the team standings.

For the penultimate event of the ESL R1 autumn series, sim racers embarked on a virtual journey to Road Atlanta in the state of Georgia. Every year, the 4.088-kilometre forested racing circuit is the venue for the “Petit Le Mans”, the ten-hour finale of the North American IMSA sports car series. Just how demanding the circuit is, even in its digital form, was underlined on Thursday in the so-called knockout round: while Rogers and Warren each won their 30-minute races, their teammates Mitchell deJong and Mack Bakkum finished eighth and eleventh respectively. As only the top six finishers in each heat are eligible to go on to the next round, the American and the Dutchman had to call it a day early.

Warren and Rogers tackled the first semi-final from fourth and fifth on the grid. However, Warren briefly ran off the track on the opening lap and rejoined the field in the third-to-last position. From
there, the 24-year-old launched a spirited pursuit, ploughing up the order to seventh place. Due to a
time penalty against Jeffrey Rietveld (Team Redline) in front of him, he subsequently progressed into
the top six and secured a spot in the final. Rogers also qualified for the final. After the chaos of the start,
he strategically kept his Porsche 911 GT3 R out of all the skirmishes and brought home to an
unchallenged fourth position.

The two Australians tackled the final with the top twelve drivers from positions ten for Warren and
twelve for Rogers – which meant that top results on Road Atlanta, which offers few overtaking
opportunities, were effectively out of reach from the get-go. Nonetheless, Rogers squeezed his way
past championship leader Sebastian Job on the very first lap. Both had started from the back row. In
ninth place, however, Rogers was able to improve his position in the drivers' standings and overtake
Czech Jiri Toman to move up to second place. Warren was also ahead of Job until shortly before the end
of the race. Ultimately, he was forced to let the British G2 Esports driver pass and crossed the finish line
in eleventh place. This result was enough for him to gain one position in the standings.

Like the debut edition of the ESL R1 series in spring, eight heats are initially scheduled in the autumn
championship until 11 November. The Major Final will take place two weeks later in Jönköping, Sweden.
Prize money of 40,000 US dollars awaits both the winners in the team and drivers’ standings.

Impressions after the race

Jörn Jens (D, Team Manager Porsche Coanda Esports Racing): “Unfortunately, Road Atlanta’s track
characteristics don’t lend themselves to the strengths of the digital Porsche 911 GT3 R. Although our
rivals made up more points in the team standings, we’re still relatively secure in second place. In terms
of the drivers’ championship, we hope that Joshua Rogers will continue to close the gap to the leader in
the next race – this would put him in a very favourable starting position for the Major Finale in Sweden.
We’re also eager for Mitchell deJong to defend his 24th position. That would mean we’d be travelling to
the grand final in Jonköping with at least three drivers.”

Joshua Rogers (AUS, Porsche Coanda Esports Racing): “It was a final day of mixed fortunes for me. Of
course, I’m happy to have reached the final but I knew that we lacked a bit of pace today. Unfortunately,
I had to start the final from the back of the grid, but I quickly made up a few positions. From there,
however, I didn’t manage to make any more progress. In terms of the drivers’ championship, it still went
quite well in the end.”

Dayne Warren (AUS, Porsche Coanda Esports Racing): “It was a satisfying weekend for our first ESL R1
guest appearance at Road Atlanta. Things went really well in the knockout round on Thursday: pole
position and victory. A lot of things worked well in qualifying today, too. But then I made a mistake on
the very first lap of the race, which relegated me back to tenth place. Nevertheless, I qualified for the
final. We went into the final race with low expectations. I started from the back of the field and had to
fight hard throughout the race. In the end, I finished eleventh.”
