

New roof tent from Porsche Tequipment

This article reflects the status at the time of its publication. The content may since have become outdated.

08/09/2022 Experience the exhilaration of sports cars in a fresh way – in the great outdoors – with the new roof tent from Porsche Tequipment. This practical adventure equipment transforms the sports car into a hotel room for nature-lovers.

It has an exclusive hardcase, which was developed at the Weissach Development Centre and co-designed by Studio F.A. Porsche in Zell am See. The hardcase design can be installed on the roof transport systems of the 911[1], Macan, Cayenne, Panamera and Taycan – both with and without roof rails. It is quite the room with a view, with two side windows and a roof window as standard. The all-season, two-person tent is now available to order from Porsche sales partners for €4,980[2]. Delivery is set to begin in November 2022.

In the extended position, the floor surface measures 210 x 130 cm. A comfortable, high-density

polyfoam mattress is integrated. The tent walls are made of a breathable cotton blend. With water-resistant zips and a separate rain cover for entry, the tent is designed for wetter weather too. The side walls mimic the flyline of the 911 and feature a PORSCHE logo. Highlights in the interior include the highly insulating quilted lining in Light Grey. The head end features a mountain silhouette. The mattress features the same quilting pattern.

Highlights in the interior of the roof tent

Other features: both side windows can be fully opened for ventilation. An insect guard offers protection against mosquitoes and an additional black-out function helps keep the light out.

The Porsche roof tent can be set up quickly at the campsite. First, you open the lockable safety latches. Then, you lift the hardcase slightly and open it up with the aid of two gas pressure shock absorbers. The foot zone of the floor is then folded out and stabilised using the integrated telescopic ladder. By now, the tent is already unfolded. The last step is simply to erect the tent and make it taut with the four poles.

Buyers can choose between the Black/Light Grey and Black/Dark Grey hardcase, each of which is adorned with a matt black PORSCHE logo. Additional optional Tequipment accessories will be available soon. This includes an inner tent, a heated blanket and a shoe and bag organiser.

Technical Specifications

- Length x width x height (folded): 146 x 140 x 33 cm
- Length x width x height (extended): 258 x 257 x 118 cm
- Weight: approx. 56 kg
- Maximum load when stationary[3]: approx. 190 kg (vehicles with roof rails) or approx. 140 kg (vehicles without roof rails)
- Top speed with installed roof tent: 130 km/h.
