

911 Love: Interview with Nico Müller

20/02/2026 New addition to the Porsche Motorsport factory team: In this interview, race car driver Nico Müller talks about his love for the 911 GT3 with Touring package.

Race car driver Nico Müller is well acquainted with podiums around the world – and across all of the racing series. Born in Switzerland, the 33-year-old has an astonishing wealth of experience to draw from. For the past nearly 20 years of his career, which started out in karting, he's had the opportunity to pilot a wide range of race cars and compete in a variety of racing series like formula racing, DTM, the Formula E World Championship, and the World Endurance Championship. His list of victories includes two runner-up titles in the DTM and an overall win in the 24-hour race at Nürburgring. Under contract as a Porsche factory driver since August 2024, Müller piloted the highly efficient 99X Electric, a vehicle that has already secured several world championship titles, in the last Formula E season for the customer team Andretti Formula E. The crowning glory will follow in the 2025/2026 season, when Müller joins the Porsche Motorsport factory team. “A childhood dream,” as he refers to the collaboration. “Porsche is the brand that race car drivers look up to.” If everything goes according to plan, everyone will be looking up to Müller – on top of the podium.
