

In episode 7 of 9:11 Magazine, everything is linked to the topic of “speed”. Over five chapters, the online TV series features daring world-record chasers, passionate racing drivers and dynamic sports cars.

9:11 Magazine: Speed

This article reflects the status at the time of its publication. The content may since have become outdated.

15/06/2018 In episode 7 of 9:11 Magazine, everything is linked to the topic of “speed”. Over five chapters, the online TV series features daring world-record chasers, passionate racing drivers and dynamic sports cars.

Speed Secrets

Four laps, four times, in less than seven minutes: The 911 GT3 RS passed its baptism of fire at the Nürburgring with flying colours. The motorsport team at Porsche provides an insight into the work that goes into such an outstanding performance.

Speed trial

Jean-Claude Rude wanted to be the fastest cyclist in the world. In 1978, he launched a daring world record attempt in the slipstream of a Porsche 935 Turbo Martini. Behind the wheel: Le Mans legend Henri Pescarolo.

Ms. Speed

Christina Nielsen's love for speed beganin the cradle. Today, she lives out her dream on the world's race tracks. 2018 will see the Danish driver take on the 24 Hours of Le Mans in a Porsche.

The Art of Speed

Witness to legendary races: To this day, the posters by graphic designer Erich Strenger convey the adrenaline and racing heartbeat associated with Porsche's greatest victories, and are examples of the unique art of putting speed on paper.

Made for speed

A true rarity: Only 21 units of the Porsche 911 GT1 Evo were built. The fact that road-approved versions of this racing car were ever built is due to a very special rule.

Consumption data

911 GT3 RS (WLTP)*: Fuel consumption combined: 13.2 l/100 km; CO_2 emissions combined: 299 g/km; CO_2 class: G

*Further information on the official fuel consumption and the official specific CO_2 emissions of new passenger cars can be found in the "Leitfaden über den Kraftstoffverbrauch, die CO_2-Emissionen und den Stromverbrauch neuer Personenkraftwagen" (Fuel Consumption, CO_2Emissions and Electricity Consumption Guide for New Passenger Cars), which is available free of charge at all sales outlets and from DAT (Deutsche Automobil Treuhand GmbH, Helmuth-Hirth-Str. 1, 73760 Ostfildern-Scharnhausen, www.dat.de).
