

# Special Edition for Panamera

*This article reflects the status at the time of its publication. The content may since have become outdated.*

30/03/2015 The special version of the Panamera stands out through elegant styling combined with a significantly expanded range of standard equipment.

Three models with powerful six-cylinder engines will be offered: the Panamera Edition (combined fuel consumption 8.5 l/100 km; CO2 emissions 199 g/km) and Panamera 4 Edition (combined fuel consumption 8.8 l/100 km); CO2 emissions 206 g/km)both come with an engine that delivers 228 kW (310 hp), while the Panamera Diesel Edition (not available in China) is equipped with a 221 kW (300 hp, combined fuel consumption 6.4 l/100 km;  CO2 emissions 169 g/km) engine. The Panamera 4 Edition features active all-wheel drive with an electronically controlled, map-controlled multi-plate clutch (Porsche Traction Management, PTM).

The four-door sports cars from Porsche play a particularly important role in the brand's profitable growth and they also safeguard the financial foundation for investments in future sports car generations. The Panamera has been one of the key pillars of success since its premiere in 2009. A total

of 24,864 units of the model were delivered in 2014. With sales of 9,250 units, China is the biggest market for the Panamera.

The exterior of the Panamera Edition is marked by additional subtle design tones, including high-glossy black trim strips on the side windows. The door handles come in the same colour if Porsche Entry & Drive is chosen as an optional feature. The standard 19-inch alloy wheels in Panamera Turbo II design feature wheel hub covers with a coloured Porsche crest.

The Panamera Edition also boasts bi-colour part-leather upholstery in Black-Luxor Beige with the Porsche crest embossed on all head rests, Sport Design steering wheel, door sill plates with "Edition" lettering and special floor mats. The standard Porsche Communication Management (PCM) system with a seven-inch touchscreen monitor combines audio, navigation and communication features. An outstanding sound experience is ensured by a 585 watt Bose Surround Sound System with 14 speakers.

Additional extensive technical features included ex-factory in the Panamera Edition are Porsche Active Suspension Management (PASM), bi-xenon headlights with
Porsche Dynamic Light System (PDLS), Park Assist front and rear including reversing camera and Power Steering Plus.

Specific variants will be offered in two countries: The Panamera Edition for China will be made even more attractive for customers who use chauffeurs through the addition of comfort seats in the rear and electric roll-up sun blinds for the side windows and rear window. Models in the USA are equipped with 14-way comfort seats in the front, including comfort memory package, as well as seat heating in the front and rear.

The Panamera Edition will go on sale in Germany in June.
