

# Fuelled by adventure: Episode 4

**09/10/2023** 5,000 adventure-fuelled kilometres later the Porsche Taycan 4S Cross Turismo glides silently over Sydney's Blue Mountains, across the Harbour Bridge and down to Bondi Beach.

Bondi Beach is in sight. The downhill run from the Blue Mountains offers an opportunity to look back at this ultimate road trip. From the tropical heat of Darwin to the dry red dust of central Australia, the hum of Australia's Harbour City now grows louder with each final kilometre.

The Taycan 4S Cross Turismo has gathered dust in the most dynamic way possible and Porsche's family of personalities have enjoyed its vast array of capabilities in these punishing but fascinating conditions. From the silent luxury of Porsche e-Performance amongst the Outback's noisy road trains, to the terrain-grabbing surefootedness of this innovative sports car, these vibrant clashes of context prove the all-electric Taycan is the ultimate modern adventurer.

It's made for Australia's brutal but beautiful terrain.

It's equally at home as it crosses Sydney's world-famous Harbour Bridge on its final stretch to Bondi Beach, steered by Australian professional surfer Nikki Van Dijk. Catch the waves, and the final episode,

of this epic 5,000 kilometre adventure-fuelled odyssey, the Darwin to Bondi Electric Roadtrip.
