

Listicle: Porsche Panamera 4S E-Hybrid

17/04/2025 Porsche has expanded its Panamera lineup with the introduction of the new Panamera 4S E-Hybrid.

Porsche revealed the third-generation Panamera to the world in late 2023, including a spectacular unveiling at the Icons of Porsche festival in Dubai. One variant of the new range is the Panamera 4S E-Hybrid.

This plug-in hybrid combines Porsche's signature performance with enhanced efficiency, offering a compelling option for those seeking both power and sustainability.

What is it?

The Panamera 4S E-Hybrid is a luxury sports saloon that integrates a new e-hybrid system with a significantly revamped 2.9-litre V6 biturbo petrol engine, delivering a system output of 400 kW (544

PS) and a maximum torque of 750 Nm.

What's new?

Greater electric range, faster charging speed, improved throttle response, and enhanced driving performance across various metrics.

The new high-voltage battery provides around 45 per cent more capacity, and the 11 kW On-Board AC charger reduces charging time to approximately two hours and 39 minutes.

Exterior

The Panamera 4S E-Hybrid showcases an athletic design, featuring newly shaped, standard matrix LED headlights and an additional horizontal air intake at the front.

At the rear, a continuous taillight and a frameless rear window distinguish the new Panamera. Silver window trim enhances the side profile, contributing to its sleek and modern appearance.

Interior

Inside, the Panamera 4S E-Hybrid offers a luxurious experience, integrating advanced technology and a redesigned control system that ensures intuitive access to vehicle functions.

Optional features such as rear-axle steering, Passenger Display, and an air quality system are available to enhance comfort and convenience.

Drivetrain

All-wheel-drive system, combines the power of the internal combustion engine with an electric motor. This setup ensures dynamic performance and optimal traction in various driving conditions.

The vehicle also benefits from Porsche's advanced suspension systems, including the optional Porsche Active Ride, which enhances both comfort and handling.

Stats

Performance: 0-100 km/h in 3.7 seconds / 290 km/h top speed

Power: 400 kW (544 PS)

Torque: 750 Nm

Range: Up to 92 km WLTP

Battery: 25.9 kWh (gross), 11 kW On-Board AC charger.

10-80% Charge: Approx 2 hours and 39 minutes

Driving experience

The Panamera 4S E-Hybrid balances performance and efficiency. Swift electric torque and sustained power combined with advanced suspension for a dynamic, comfortable ride.

Porsche AG Global Press Kit: Panamera

The global press kit from Porsche AG for the Panamera is available here.

Further information

The PDF specification sheet (UAE specifications) for the PME press car pictured here is available for download on the right side bar.

Equipment and technical information displayed are based on the UAE models and may differ for the models that are offered for sale in your country. Please consult your local Porsche Centre for up-to-date information.

** may vary depending on ageing and battery temperature*
