

Porsche South Africa launches 911 Carrera GTS T-Hybrid in the Western Cape

08/09/2025 Porsche South Africa hosted an exclusive media driving event in the Western Cape, providing selected journalists with the opportunity to experience the new 911 Carrera GTS with performance hybrid technology for the first time in the region.

South Africa | Porsche has fundamentally upgraded the iconic 911 sports car. The new 911 Carrera GTS is the first street-legal 911 equipped with a super-lightweight performance hybrid, a concept based on a wealth of experience gained from motorsport.

The new 911 Carrera GTS range is equipped with a 3.6 litre flat-six engine. With Launch Control it takes the coupe variant just 3.0 seconds to reach 100 km/h and achieves a top speed of 312 km/h. In total, the drive system output is 398 kW or 532 hp with 610 Nm of torque.

Porsche South Africa hosted a media driving event in the Western Cape region for selected journalists

to introduce this performance hybrid 911 to a national audience.

The Western Cape region offers some of the most scenic, twisty roads in the world – perfect for a spirited drive in the 911 Carrera GTS. More than one participant at the event commented that it was ‘the best launch I’ve ever been on.

Keeping participants on course can prove challenging. Enter the ROADS app by Porsche, available to everyone who loves to drive. The unique route planner in ROADS generates stunning routes for a road-trip with the click of a button.

Based on unique insights from a professional network of drivers, ROADS has extracted the bare ingredients of what makes a route drive-worthy and wrapped them in a beautifully designed, free-of-charge application for you to access and enjoy every day.

Thanks to the premium routing intelligence of ROADS, you can turn any possible connection between two or more locations into a striking scenic route and share it with your friends. Whether you want to share your latest route, or want to explore a new one, you’ll be able to do it with the ever-expanding catalogue of exhilarating routes in the Porsche Roads app.

AI works out a suitable route based on various parameters such as the curves of the road, the topography, landscape features, or exciting points of interest. From the starting point, the user can plan a circuit route or navigate to a specific destination – no matter where in the world you are.
