

New Porsche Cayenne Platinum Edition

This article reflects the status at the time of its publication. The content may since have become outdated.

28/04/2016 Elegant, sophisticated and exclusive: Porsche is offering a limited edition of the Cayenne with extensive features.

The special edition Cayenne Diesel and Cayenne S E-Hybrid are easily recognisable at first glance by their distinctive sporty appearance. Both models also offer premium-quality features at a very attractive price. For example, the vehicles' large 20-inch wheels in RS Spyder design are housed in wider wheel arches. The exclusive interior is dominated by leather sport seats with electric eight-way adjustment, Alcantara centre panels and the Porsche crest on all head rests. Porsche uses the Platinum Edition designation for selected model series that are offered for only a limited time.

The models' expanded features improve comfort and safety in particular. For example, standard equipment in the Cayenne Platinum Edition includes Bi-xenon headlights with the Porsche Dynamic

Light System (PDLS), Power Steering Plus and ParkAssist in the front and back come also standard. The latter system not only uses an audible beep to indicate the distance to objects or other cars in front of and behind the vehicle; it also graphically depicts the direct surroundings on the central display. The exterior mirrors and rear-view mirror are equipped with an automatic anti-glare feature as standard, while dark-tinted privacy glass (also standard) provides additional privacy for rear passengers.

Appearance is rounded out by a high-gloss exterior package

A non-metallic black and white finish is standard, with Deep Black, Purpurite, Mahogany, Carrera White or Rhodium Silver metallic paints available as an option. The broadened wheel arches also come in the chosen colour scheme. The models' exclusive appearance is rounded out by a high-gloss exterior package.

For anyone entering the vehicles, the special status of the Cayenne is plain to see with stainless steel door sills with "Platinum Edition" lettering, and illuminated door sills that light up the model name in the Cayenne S E-Hybrid Platinum Edition. As an additional high-end standard feature, the Platinum Edition models come with the latest generation Porsche Communication Management (PCM) system that includes online navigation, the Connect Plus module and a BOSE® Surround Sound system. The dashboard is adorned with a beautifully designed analogue clock, and the Cayenne S E-Hybrid also comes with a stationary heating/air conditioning system.

The three-litre V6 engine in the Cayenne Diesel Platinum Edition has an output of 193 kW (262 hp; Combined fuel consumption 6.8–6.6 l/100 km; combined CO_2 emissions 179-173 g/km) and consumes between 6.8 and 6.6 litres of diesel per 100 kilometres in the NEDC, depending on the tyres the vehicle is equipped with. The combined output of the Cayenne S E-Hybrid is 306 kW (416 hp; combined fuel consumption 3.4 l/100 km; combined CO_2 emissions 79 g/km; electricity consumption: 20.8 kWh/100 km). Here, the perfect interplay between the three-litre V6 petrol engine and the electric motor results in total consumption of 3.4 l/100 km.

The specifications of the Porsche Cayenne Platinum Edition may vary in individual markets. For information about specifications, market launch and pricing please have a look at porsche.com.
