

The new Porsche 911 GT3 RS is in the starting blocks

26/07/2022 The Porsche 911 GT3 is getting a big brother: the 911 GT3 RS, the new top of the 911 line in terms of performance will celebrate its world premiere on 17 August. The development of the high-performance sports car was inspired by the successful 911 RSR and 911 GT3 R GT racing cars.

“The new 911 GT3 RS is even more optimised for track use than its predecessors. The spontaneously responsive, high-revving four-litre, six-cylinder boxer engine with approximately 500 PS has proven ideal for use at trackdays and club sport events,” said Andreas Preuninger, Director GT Model Line.

“That's why we focused primarily on aerodynamics and chassis questions in the development of the new 911 GT3 RS.”

Broadcast on 18 August at 1:00 am AEST

The digital world premiere of the new Porsche 911 GT3 RS will be broadcast on newstv.porsche.com on

17 August at 5:00 pm CEST / 18 August at 1:00 am AEST. The video will also be available on demand there after the event.

Consumption data

911 GT3 (Predecessor model)

*Further information on the official fuel consumption and the official specific CO_2 emissions of new passenger cars can be found in the "Leitfaden über den Kraftstoffverbrauch, die CO_2-Emissionen und den Stromverbrauch neuer Personenkraftwagen" (Fuel Consumption, CO_2Emissions and Electricity Consumption Guide for New Passenger Cars), which is available free of charge at all sales outlets and from DAT (Deutsche Automobil Treuhand GmbH, Helmuth-Hirth-Str. 1, 73760 Ostfildern-Scharnhausen, www.dat.de).
