

The fastest and most exciting Cayman ever is the highlight of the LA Auto Show

12/11/2021 Five new Porsche models will celebrate their world premiere in Los Angeles online

At the LA Auto Show (November 19-28), Porsche will present the new flagship of the 718 family: the 718 Cayman GT4 RS. The RS-typical enhancements include more downforce and power than the 414 hp 718 Cayman GT4, while the weight has been reduced. The result is the most uncompromising and capable 718 ever – and a world of driving pleasure. It can complete a 12.8 mile lap of the Nürburgring Nordschleife in just 7:04.511 minutes. This is 23.6 seconds faster than a 718 Cay-man GT4 equipped with the Porsche dual clutch transmission (PDK). At the same time, the track-only 718 Cayman GT4 RS Clubsport racing version will also celebrate its debut in Los Angeles.

The all-electric Taycan will be the focus of two world premieres: a new, incredibly dynamic variant positioned between the Taycan 4S and the Taycan Turbo, and a third body style will be revealed to the public for the first time in California. The Panamera family is also gaining a new member: Porsche is

launching a special ver-sion with extensive standard equipment: the Platinum Edition.

The unveiling of all five world premieres will take place on Tuesday, November 16th at 8:00 p.m. PST/11:00 p.m. EST with Oliver Blume, Chairman of the Executive Board at Porsche AG, Detlev von Platen, Member of the Executive Board for Sales and Marketing, and Frank-Steffen Walliser, Vice President Model Line 911 and 718. Ex-Formula One driver and Porsche brand ambassador Mark Webber will host the event.

How to watch

All of the action will be broadcast in English on NewsTV.porsche.com and on Facebook, YouTube and LinkedIn.
