

Georgia Governor Brian P. Kemp Visits Porsche Cars North America headquarters

17/04/2024 Atlanta. Georgia Governor Brian P. Kemp and First Lady Marty Kemp, visited the Porsche Cars North America (PCNA) campus on Wednesday. The couple toured the recently expanded track at the Porsche Experience Center and the new North American Classic Headquarters. The Governor also had the opportunity to drive on the new west track in an all-electric Taycan. The PCNA campus underwent a \$50 million expansion, completed in late 2023.

As the visit coincided with an all-staff meeting, the Governor briefly talked on stage with PCNA President and CEO Timo Resch about Porsche's new cars, electrification, Porsche's investment in Georgia, and the new solar array installed at the Porsche Experience Center in Atlanta.

"We are honored Governor Kemp and First Lady Marty Kemp found time in their busy schedules to visit One Porsche Drive," said Resch, "We appreciated the chance to be able to show them our incredible new campus and introduce him to our amazing employees."

Governor Kemp last visited a Porsche site in January 2020, when he toured the Porsche factory in Zuffenhausen.

Porsche Cars North America headquarters have been in Atlanta since 1998. In September, PCNA will celebrate its 40th anniversary in the United States.
