Paying tribute to tradition: the 911 Targa 4S Heritage Design Edition

Porsche presents the 911 Targa 4S Heritage Design Edition, a state-of-the-art 911 with design elements from the 1950s and early 60s and the first of four collector's pieces of the Heritage Design strategy.

Historical exterior and interior design elements have been reinterpreted and combined with the latest technology in a special limited edition from Porsche Exclusive Manufaktur. The new model is available to order now and will be in dealerships from autumn 2020. Only 992 examples will be built, matching the internal model series code.

Along with the introduction of the special edition, selected interior elements will be available as part of the Heritage Design package for all current 911 models. Porsche Design has also created a high-quality chronograph, to be built in restricted numbers as well, exclusively available to purchasers of the new limited edition model.

"With the Heritage Design models, we are evoking memories of the 50s, 60s, 70s and 80s in customers and fans alike," said Oliver Blume, Chairman of the Executive Board of Porsche AG.

"No brand can translate these elements into the modern day as well as Porsche. In this way, we are fulfilling the wishes of our customers. We are also establishing a new product line that represents the lifestyle dimension in our product strategy with these exclusive special editions."

Exclusive paintwork in Cherry Metallic or the four other exterior colours that are available, combined with gold logos, create an authentic look in true 50s style.

The exterior of the 911 Targa 4S Heritage Design Edition features high-quality white livery with a historical design.

The spear-shaped graphic motorsports elements on the front wings are particularly striking, recalling the early days of Porsche competition history.

Another highlight is the Porsche Heritage badge on the engine lid grill in the rear, which is reminiscent of the one that was awarded back in the day when a Porsche 356 reached the 100,000 kilometers mark. The quality seal of quality from the past – with a modern twist – will grace the rear of all four Porsche Heritage Design models.

The connection between past and present is also emphasised by the 1963 Porsche Crest on the bonnet, steering wheel, wheel centres

and vehicle key. The historical motif is also embossed on the head restraints and key pouch. Further emphasis is provided by the standard 20/21-inch Carrera Exclusive Design wheels and classic-look brake callipers finished in Black.

The interior also pays tribute to the past with the exclusive two-tone leather interior combining Bordeaux Red leather with OLEA Club leather in Atacama Beige or Black leather with OLEA Club leather in Atacama Beige.

The use of corduroy on seats and door trims signals the return of a material used in the Porsche 356, reviving the zeitgeist and fashion of the 50s.

The classic looks of the green-illuminated rev counter and stopwatch underline the emotive nature of the concept in the same way that the perforated roof liner in microfibre fabric and extensive Exclusive Manufaktur leather trim do. A metal badge on the trim panel of the dashboard visualises the individual limited edition number.

The first Heritage Design model is based on the new 911 Targa of the 992 generation introduced recently, and has been equipped with the latest technologies for chassis, assistance systems and infotainment. It is powered by a high-tech 331 kW / 450 PS* (horsepower) biturbo boxer engine which, in combination with the eight-speed dual-clutch transmission, accelerates the 911 Targa (with Launch Control) from 0-100 km/h in less than 3.6 seconds on its way to a top speed of 304 km/h.
