Porsche calendar 2018

The roots of Porsche lie in motorsport. The 2018 Porsche calendar entitled "Race Lab" pays tribute to the racing history of the company.

Every Porsche has motorsport in its genes – from the 911 GT2 RS to the Cayenne S. And this is exactly what the sports car manufacturer is now showcasing with its photo shoot of the current vehicle range. The vehicles have been photographed on the test track and also in front of the workshops belonging to the top-secret development centre in Weissach and Flacht, the heart of Porsche Motorsport. Porsche Newsroom attended the photo shoot and is able to share some exclusive insights:
