Puma releases Porsche Legacy collection

Puma has released an exclusive new collection of apparel and footwear inspired by the Porsche 911 Turbo.

Paying homage to the heritage of Porsche's legendary turbo engines, the new line blends Puma's subtle approach to styling with references from automotive history. Key pieces include the Porsche Legacy Bomber Jacket and a t-shirt featuring a large turbo graphic on the back, a logo on the front that nods to the Porsche Shield and a 'Never Lift' label woven in to the collar.

The capsule also includes two pairs of sneakers: the Porsche Legacy Future Rider, which features an upper made of premium leather with pops of colour, and a sole that provides extra grip when driving; and the sleek Porsche Legacy Speedcat Lux, which fuses one of Puma's most iconic designs with engineering-inspired styling. The Speedcat Lux comes with a high-quality suede upper and features laser-engraving and perforated ventilation areas.

Info

The Porsche Legacy collection is now available online at www.puma.com.
